What do you make? Like Video Game Designers, we are responsible for a quality product.

I. Design

(Turn and Share—What is your favorite game of all time? Why?)

II. Raw Materials

(Most rewarding—starting with a diamond or a chunk of coal?)

III. Manufacturing Process

(If you had to think of a theme song for your teaching career, what would it be?)

IV. Quality Control

(One bad apple...)

What do you make?

Links used in this presentation:

Wikispaces.com- great website and collaboration

<http://wikispaces.com>

Prezi- presentation software <http://prezi.com>

Answers.com- great source of information

<http://answers.com>

USA Testprep- pay site that has games, quizzes, and tutorials for fundamental skills <http://usatestprep.com>

Podcast from your phone <http://gcast.com> (now pay subscription)

New phone recording service <http://www.yodio.com/>

Video mix and storage <http://www.jaycut.com>

Video site for storage <http://www.vimeo.com>

Presentation creation (and so much more)

<http://docs.google.com>

Video game creation- flash based <http://www.sploder.com>

Cartoon creation <http://www.toondoo.com>

Additional Resources for Games, Video, and Music for Learning:

Feed the hungry and increase vocabulary, grammar, geography, and more <http://freerice.com>

Defend against disease, discover Babylon, and more
